## Fun Facts

Sea turtles spend most of their time in the water.

They only return to land to lay eggs. They will return to the same nesting ground where they hatched.

Octopuses have eight arms called tentacles.

Octopuses also have three hearts, and their blood is blue.

Jellyfish have been around for over 650 million years.

Jellyfish do not have a brain.

Seahorses are small fish with a head shaped like a horse.

Seahorses live mostly on coral reefs, in seagrass beds. They use their tails to grasp the seagrass.
